This image shows a full page of blank, lined paper. It features approximately 28 horizontal blue or grey lines spaced evenly apart, typical of notebook paper. The lines extend across the entire width of the page, leaving small margins at the top and bottom. There are no vertical lines, text, or other markings on the page.

**CORRUGATED BOXES**

- RSCs are the most commonly used box style
- Boxes are shipped flat in unitized bundles
- Dimensions are inside dimensions and listed Length x Width x Depth
- All sizes come in Kraft unless otherwise noted

**TUF-R® HEAVY LINEAR LOW DENSITY FLAT BAGS**

- Made from a unique blend of linear low density (LLD) resin
- This material allows bags to be of a thinner gauge while still providing the same or better strength and puncture resistance as a standard low density bag of a higher gauge
- Bags meet FDA requirements for use in food applications
- Bottom sealed for added strength

## HEADER PAK® HEADER BAGS

- An excellent intermediate solution for bulk packaging tasks
- Bags are constructed of low density polyethylene and because they are packaged on a convenient header with perforations for easy tear off, filling is quick and easy
- Designed to be used with saddle pack stands
- Chipboard header holds bags securely in place for fast filling
- Perforated lip for easy tear-off

## LEAK-PROOF BAGS

- Leak-proof bags manufactured with a special EVA additive and extra seal strength to prevent leakage
- This extra protection makes them ideal for transporting tropical fish and similar applications

## LOW DENSITY POLY TUBING

- 100% virgin low density polyethylene
- Treated to allow for printing
- FDA approved for food use
- Excellent for packaging products of varying lengths
- Supplied on 12" diameter rolls (3" core)
- Tubing can be heat sealed, stapled, or taped at either one or both ends

## PINK ANTI-STATIC POLY TUBING

- Pink anti-static material contains additives that effectively eliminate the hazard of static damage to electronics
- It has a surface resistivity of 10<sup>12</sup> ohms/sq.in. and is amine-free, so it won't damage sensitive polycarbonate boards
- Designed for applications in which Faraday Cage Protection is NOT required

## STRATOGREY™ SEAL TOP STATIC SHIELDING BAGS

- Buried metal construction provides double protection against static discharge
- Amine/amide-free interior will not corrode polycarbonate surfaces and produces no outgassing
- The semi-transparent material allows for easy identification of contents
- Great for protecting contents that must be accessed multiple times
- The 3/8" side seal ensures packaging integrity during storage and handling

**PLASTRONIC® MERCHANDISE BAGS**

- High molecular weight, high density film makes these bags strong and durable
- They're embossed for easy opening and are conveniently packaged in a low cube dispenser carton
- Made with controlled-life technology that enables them to break down in the presence of sunlight, heat, moisture, and outdoor elements, but still allows them to be recycled with regular HDPE material

**SPIRAL WRAP POLYPROPYLENE TYING TWINE**

- Made from parallel untwisted monofilament polypropylene fibers bound together in a spiral jacket
- In addition to resisting deterioration from moisture this twine weighs less than sisal and is easier to handle
- Best suited for hand use
- Used for general tying and wrapping applications
- Resists fraying and unraveling after cutting

| Item#  | Mfg#   | Description              | Case Pack |

### EPS FOAM WINE SHIPPING CONTAINERS

- Containers are able to be broken down into single or 6-packs
- Expandable polystyrene is the best protective packaging for shipping bottles filled with liquids
- Suspends the shipped component within a corrugated carton and if mishandled, the corrugated may get damaged, but the EPS packaging protects the fragile components
- ISTA-3A Certified

## Remember:

- A correctly sized bag should fit snugly around the bin, without needing to be tied
- One size does not fit all: using a correctly sized bag for your bin can save you from wasted bag material and wasted cost
